

1070 aluminum plate sheet has high plasticity, corrosion resistance, electrical conductivity and good thermal conductivity characteristics, but low strength, not enhanced by heat treatment, cutting is not good, acceptable contact welding, gas welding. More use of the advantages of making some structures with specific properties, such as aluminum foil gasket and capacitor, electronic wire, pipe net, protective sleeve, cable net, wire core and aircraft parts and trim ventilation system.

Alloy	Temper	Thickness (mm)	Width (mm)	Length (mm)	Final product
1070 aluminum plate sheet	O,H12,H14,H16 H18,H19,H22,H24 H26,H28,H32,H34 H36,H38	0.2-4.5	100-2600	500-16000	Isolation of electronic tubes, wires, aircraft ventilation system components, etc.

Performance advantage

- 1, 1070 aluminum plate sheet has long service life, low cost, and high recovery value.
- 2, [1070 aluminum sheet](#) has high plasticity, corrosion resistance, electrical conductivity and good thermal conductivity, acceptable contact welding, gas welding;
- 3, Haomei aluminum products to strictly control the quality of processing, texture, crystal structure, composition, product performance to the international advanced level;
