

Aluminum plate sheet products online: <https://www.aluminumsheet.net>

**3004 aluminum plate** sheet also belongs to a series of AL-Mn alloy, the strength is higher than the 3003 aluminum plate, the formability, the solubility, the corrosion resistance is good, request has the higher strength than the 3003 alloy components.

Alloy	Temper	Thickness (mm)	Width (mm)	Length (mm)
3004 Aluminum plate sheet	O,H12,H14,H16 H18,H19,H22,H24 H26,H28,H32,H34 H36,H38	0.2-4.5	100-2600	500-16000

Final Usage:Heat sink, liquid crystal backing material, etc.

Performance advantage

- 1, 3004 aluminum plate sheet formability, solubility, corrosion resistance are good.
- 2, excellent forming characteristics, high corrosion resistance, good weldability and conductivity, strength higher than the 3003 aluminum plate sheet.
- 3, smooth surface, good plasticity, pressure resistance;
- 4, the use of international leading grinder equipment, reduce product defects.
