

Aluminum Checkered Sheet | Haomei Aluminium

Haomei offer slip resistant, corrosion free and protective [aluminum checkered sheet](#) for your ramps, ladders, tailgates, running boards, walkways and automobile floors. Depending on the type of plate, 1 to 5 bars are arranged next to each other, forming a checked pattern. It is differentiated between 1 bar(diamond), 2 bar, 3-bar and 5-bar patterns.

As a largest aluminium checkered sheet manufacturer in China, we Haomei deal in producing top quality aluminum checker plate made from export quality aluminum alloys. We offer special designed aluminum check plates for specific marine applications that prevent corrosion even under years of services.

Specification of aluminum checkered sheet

Item	aluminum checkered sheet
Grade	1050, 1060, 1100, 3003,5052, 5083, 5086, 6061 etc.
Temper	O, H12, H14, H16, H18, H24, H24, H26, H32, H34
Standard	ASTM-B209. EN573-1, GB/T3880.1-2006
Thickness	0.8 - 12mm
Width	400-1220mm

Quality	Totally free from defects like white rust, oil patches,roll marks, edge damage, camber, dents, holes, break lines, scratches and free from coil set.
MOQ	1-2 Metric ton
Free sample	Available
Delivery time	20-30 days after deposit

Application of aluminium checkered sheet

Our entire range of aluminum checker plates are designed to cater all types of applications which includes loading ramps, stair tread, flooring, dock plate, dock board, decorative purposes, fire trucks, ambulances, etc.

- A. Aluminum checkered sheet has good skid resistance. So it is usually used in the loading ramps, trench covers, dock flooring, stair treads and even for the car, truck, ambulance and fire truck.
- B. It has the decorative function, so it can be used as decoration wall panels, cabinet and ceilings.
- C. Because of the anti-corrosion, it can be used in the chemical industry, or in the decoration of the ship and port facilities.

Advantages of checkered aluminium sheet:

Anti-skid. It is benefit from the raised surface of the checker plate.

Anti-corrosion and rust. The aluminum and galvanized material can help the checker plate from the corrosive and dusty environments.

Anti-high temperature and alkaline.

Decorative. The bright surface, especially the polished aluminum checker plate has outstanding decorative affection.

Easy to install and economical. They are one-piece structure and lightweight, we can install them with few people and less cost.
