

## Aluminum Chequer Plate | Haomei aluminium chequer plate

Haomei provide a wide range of [aluminum chequer plate](#) cut to size, which are manufactured using qualitative raw materials and available in different designs. Used in diverse industrial applications, aluminium chequer plate sheet have reliable quality, reasonable prices and prompt delivery.

Aluminium chequer plate cut to size is better for antirust and lighter than other materials, it can be used for many years and can retain high value after being replaced. This type of checkered plate is widely used as antiskid plate in both commercial and industrial flooring needs and also used in the vehicles, such as the ambulance and the firework truck.

### Specification of aluminum chequer plate:

Item	<b>aluminum chequer plate</b>
Grade	1050, 1060, 1100, 3003,5052, 5083, 5086, 6061 etc.
Temper	O, H12, H14, H16, H18, H24, H24, H26, H32, H34
Standard	ASTM-B209. EN573-1, GB/T3880.1-2006
Thickness	0.8 - 12mm
Width	400-1220mm
Length	max 6000mm for sheet or as required for coil
Pattern	big 5 bar / small 5 bar / 3 bar / diamond / pointer
Surface treatment	polished, mill finished, power coated, sand blast, anodized, brushed.
Surface Protection	Oleo phobic coating,protective film,paint coating.
Packing	Export wooden pallets. The bundle weight not exceed 2MT. Loading:by 1x20GP.
Quality	Totally free from defects like white rust, oil patches,roll marks, edge damage, camber, dents, holes, break lines, scratches and free from coil set.
MOQ	1-2 Metric ton
Free sample	Available
Delivery time	20-30 days after deposit

### Features of aluminium chequer plate price:

Skid-resistance.

Resist rust.

Resist corrosion and long life.

Lighter than other material.

Remain high value after being replaced.

Decorative function.

**Producing Line of aluminium chequer plate cut to size:**

Haomei have one 1+2 hot rolling production line, six 2450mm, 2050mm, 1650mm, 1450mm cold rolling lines, two 1650mm foil rolling production lines, two 1850mm continuous rolling production lines and one roll coating production line. These equipment enables us to provide quality checkered plates products for our customers.

**Application of aluminium chequer plate sheet:**

Chequer plate aluminum can be made from different material, so they can be used in various environment. Such as the places exposed to the chemical, heat, corrosion, dust and watering. It is usually used in the chemical workshops, waste water treatment plants, offshore oil production platforms and so on.

Benefit from the anti-slip feature, the checker plate is used as the anti-slip floorings in the majority situations. Such as the workshops, running boards of car, stair treads, subways, walkways, lifting equipments, etc.
